

Framework of Action and Goals

Dimension	Status	Outlook	SDG
Value-based corporate management	<p>Integrity & compliance As an international company we bear the responsibility to respect human rights worldwide.</p>	B. Braun is committed to its responsibility to comply with human rights and ensures this with effective strategies, processes and services.	 <p>SDG 8.8 Protect labor rights and promote safe and secure working environments for all workers</p>
Dedicated employees	<p>Diversity We promote a working environment, in which all employees are valued, integrated and treated equally for their individual and collective diversity.</p>	We rely on a wide range of perspectives and want to increase the proportion of women in management positions. Our target consists of employing 20% women at the 1st level and 15% at the 2nd level below the board by 2025.	 <p>SDG 5.5 Ensure women's full and effective participation and equal opportunities for leadership at all levels of decision-making in political, economic, and public life</p>
	<p>Occupational health & safety All employees should work in a safe and healthy environment. Our measures for occupational health and safety make a positive contributions to this.</p>	We pursue a consistent, systematic approach to avoid accidents and illnesses in the workplace worldwide and want to unify our occupational health and safety management standards at all production sites by 2023.	 <p>SDG 3.8 Achieve universal health coverage, access to quality essential health-care services and access to safe, effective, quality and affordable essential therapies for all</p>
Effective solutions	<p>Product quality & safety In the development of sustainable solutions high-quality and safe products are of the highest priority. Due to increasing digitalization, data protection and data security for our solutions are becoming more crucial.</p>	Through continuous improvement of the quality and efficiency of health care B. Braun can provide access to high-quality medical solutions for a growing number of people delivering them to 195 countries worldwide.	 <p>SDG 3.8 Achieve universal health coverage, access to quality essential health-care services and access to safe, effective, quality and affordable essential therapies for all</p>
	<p>Product quality & safety B. Braun focuses on optimizing its production processes to reduce, reuse and recycle. In the manufacturing of our products we consider the use of alternative materials and work on the optimization of packaging.</p>	The recycling rate of our waste, currently around 90 percent, is constantly increasing, and we plan to develop a guideline for reduction, reuse and recycling in our production processes.	 <p>SDG 12.5 Substantially reduce waste generation through prevention, reduction, recycling and reuse</p>
An environment worth protecting	<p>Reduction of emissions and protection of resources We are reducing our emissions and consumption to preserve natural resources. In doing so, we focus on avoiding and reducing CO₂ emissions.</p>	With the goal of globally reducing 50 percent of CO ₂ emissions at its locations by 2030, B. Braun effectively contributes to more climate protection. In addition, we plan to achieve climate neutrality for all new buildings and renovations planned as of 2023 onwards.	 <p>SDG 13.2 Integrate climate change measures into national policies, strategies and planning</p>
Transparent supply chain	<p>Compliance with standards Complying with fundamental environmental and social standards is the basis of our supplier management – in addition to high quality, reliable delivery and competitive prizes. To do this, we have introduced corresponding strategies, processes and policies which are being optimized continuously.</p>	Our medium-term goal is to manage risk across the entire volume of expenditure with our suppliers. By 2023, we want to assess 80 percent of our annual order volume with suppliers according to global sustainability standards.	 <p>SDG 8.4 / 8.5 / 8.8 Improve global resource efficiency in consumption and production and endeavour to decouple economic growth from environmental degradation; protect labor rights and promote safe and secure working environments of all workers; achieve full and productive employment and decent work for all and equal pay for work of equal value</p>
Sustainable society	<p>Social commitment B. Braun contributes to society beyond its core business. The focus of our social commitment is on imparting knowledge and promoting educational projects.</p>	With the B. Braun for Children" initiative, we support children in more than 100 projects at many B. Braun locations around the world and intend to continue this commitment in the future.	 <p>SDG 4.A Build and upgrade educational facilities that are child, disability and gender sensitive and provide safe, nonviolent, inclusive and effective learning environments for all.</p>
	<p>Access to health care We particularly want to expand our commitment through cooperations in order to promote health care, and want to support the establishment and expansion of healthcare systems in developing countries.</p>	Within the framework of the BMZ develoPPP program, B. Braun cooperates with the German Corporation for International Cooperation (GIZ) and contributes to the sustainable development in disadvantaged countries. We will continue our support by expanding our development cooperations in Africa and Asia.	 <p>SDG 17.3 Mobilize additional financial resources for developing countries from multiple sources</p>
